| Telecommunications Management | CALNET Program | 0201.0 |

The California Department of Technology, CALNET Program helps approximately 160 State and 1,800 local government agencies effectively utilize the State voice and data networks and stay connected to the best available rates, services and equipment to meet business needs. This is accomplished through competitively bid master telecommunications and consultant contracts, and proactive project management. From government offices to prisons and hospitals, and in emergencies, CALNET works with network providers and customers to keep voice communication and data information flowing.
