OMWV Version 12.1

OMWV Version 12.1

- **Background**: OMWV (formerly referred to as GO-ONLINE) has been upgraded, moving it off the Windows Servers (11.5) and onto the mainframe.

OMWV Version 12.1

- Enhanced Security:
  - Logging on will now be a single step using your RACF ID and password
  - Generic Userids (such as EDDONLINE and TRONLINE) are no longer part of the logon process.
  - RACF Passphrase support is available

- Additional browser support for EDGE, Chrome and Firefox have been added

OMWV Version 12.1

- Summary of Changes:
  - Logging On
  - Report Retrieval
  - Browser Support
  - New URLs
    - Firewalls will need to be updated to allow access
  - Favorites
    - If you are currently using Favorites, you will need to manually set up again, in 12.1
    - Copy Favorites from 11.5 TO 12.1, while in 'parallel' verification time period

OMWV Version 12.1
Logging On

NEW 12.1 Home Page/Logon Page

- **User Name and Password:** This is your RACF userID and password.

Report Retrieval

OMWV Version 12.1
Report Retrieval - Favorites

OMWV Version 12.1
Report Retrieval - Favorites

Once the FAVORITE filter is saved, it will show up in the Favorites List, under the Advanced Search Tab

OMWV Version 12.1
Report Retrieval - Emailing in 12.1

- As mentioned earlier, OMWV now supports EDGE, Chrome and Firefox browsers. Agencies should no longer use IE to access OMWV.

- Starting in release 12.1, OMWV has been configured to use SMTP.
  - Add-ons such as Active-X (used by IE) are no longer used.

- Emailing for Outlook
  - The address book from Outlook is not available, so you will need to know the email address
  - Emailing will NOT keep a copy in your Outlook SENT folder
    - If you need a sent copy of your email, you will need to save the report to your desktop and then use Outlook to send it.

OMWV Version 12.1
Report Retrieval - Emailing in 12.1

You will need to provide both the From and To email addresses manually.

OMWV Version 12.1
Report Retrieval - Exports

- Exporting Reports. OMWV no longer saves your report directly into a spreadsheet.
  - Reports will by default be saved in XML format.

- We have a provided a sample rule named "Test XML Export" to assist in spreadsheet creation.
  - After selecting the Export Option from the pulldown you will select Load Rule.

OMWV Version 12.1
Report Retrieval - Exports

Export in 12.1

OMWV Version 12.1
Report Retrieval - Exports

Once EXPORT is selected, a window will pop up with parameters to chose from. You also have the option to select a RULE that has previously been defined.

For example:

If you would like to define a **new** RULE, this is the first screen from which you will make your selections. Hit NEXT to advance to the next selection screen.

NOTE: The selections on this and the following pages are only an EXAMPLE.

OMWV Version 12.1
Report Retrieval - Exports

LOADING an Existing RULE

SELECT the RULE to load:

OMWV Version 12.1
Report Retrieval - Exports

LOADING an Existing RULE

Once you select the existing RULE, it will load pre-defined parameters, such as those in this example (you will only see the first page of parameters).

CREATING A NEW RULE

OMWV Version 12.1
Report Retrieval - Exports

CREATING A NEW RULE

RULE can be PUBLIC or PRIVATE

Once you have SAVED RULE, hit FINISH

OMWV Version 12.1
Report Retrieval - Exports

CONVERTING from XML to EXCEL

After hitting FINISH, it will download an XML file. SAVE AS to your folder (you can rename the file at this time.
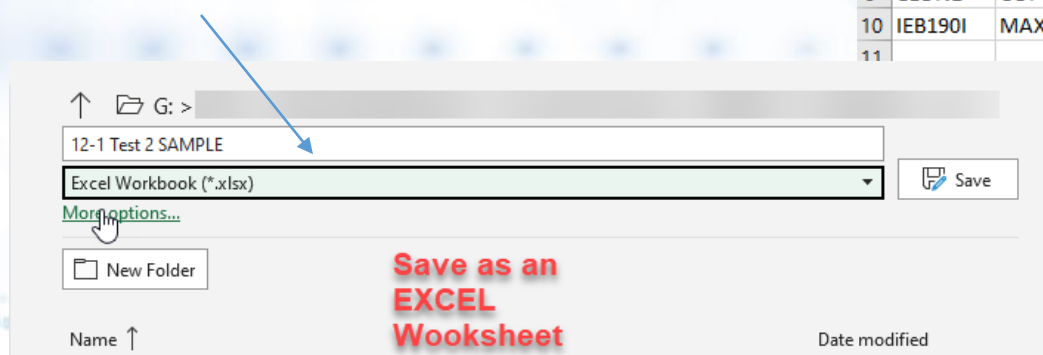

OMWV Version 12.1
Report Retrieval - Exports

CONVERTING from XML to EXCEL

1. Open up EXCEL to a NEW (blank) spreadsheet.
2. Do File>Open and open your saved XML file.
3. Modify column widths, column titles, etc, if necessary.
4. Save AS Excel Worksheet

Save as an EXCEL Wooksheet

OMWV Version 12.1
Problems/Troubleshooting

From ITSM Portal, search on **go online** (or **go-online**, or **OMWV** or **Webviewer**)

This will bring up the correct SN CI for the ticket:
