- Page 19-20, Item 8, Updated Bidder's Product Description, Restrictions, and Limitations. Deleted: "The powerful StartOutboundVoiceContact API actions makes Amazon Connect Ideal tool for managing this dynamic. This action enables you to program outbound calls to contact customers. These contacts might take the form of automated reminders, follow-up calls, calls to schedule appointments. A first-time contact initiated from an online one-click call button, or a promotional outreach." Added: "This action enables you to program outbound calls to contact customers. These contacts might take the form of automated reminders, follow-up calls to schedule appointments, a firsttime contact initiated from an online one-click call button, or a promotional outreach."

- Page 21, Item 10, Updated Bidder's Product Description, Restrictions, and Limitations. Added: "Aspen-Dialer provides the caller with an automatic callback. The automatic callback is a feature of an IVR system that allows a caller to choose to be called back rather than wait on hold in the phone queue. When an agent becomes available, the system will call the customer and when they answer, they are connected to the agent." Deleted:After a voice prompt, a working queue is selected and ita queue status is checked. A voice prompt tells customers if the wait for the selected queue is longer than 5 minutes. Customers are offered a choice to wait in the queue or to be placed into a callback queue. If the customer decides to wait in the queue, the Set customer queue flow block places them in a queue flow flow that provides a callback option. That is, it places them in Sample interruptible queue flow with callback."
- Page 21, Item 11, Updated Bidder's Product Description, Restrictions, and Limitations. Deleted: "Amazon Lambda function provides this data to external BI applications if desired, while standard metrics are reported inside Amazon Connect." Added: "Aspen-Analytics empowers a call center to analyze and track agent performance across 100% of customer interactions. This will assure that customers are being treated properly and their issues resolved appropriately when they call in. This will also increase agent's productivity.
- Page 22, Item 12, Updated Bidder's Product Description, Restrictions, and Limitations. Deleted: "Amazon Connect is an open platform so it is easy to integrate with existing or other third party Systems that provide Screen Capture capabilities. The Amazon Connect Service API

Documentation provides details about all the operations, types, inputs and outputs, and error codes. The Amazon Connect Participant Service API provides details about the APIs used by chat participants, such as agents and customers." Added: Amazon Connect, Genesys and TalkDesk other AWS hosted cloud-based contact center solutions are open platforms so, it is easy to integrate with existing or other thirdparty Systems that provide Screen Capture capabilities."

• Page 22, Item 13, Updated Bidder's Product Description, Restrictions, and Limitations. Deleted: "Connect supports inbound and outbound as a blended service. Routing Profiles dictate how calls are routed to agents, and those profiles are specified based on skills, permissions, and roles." Added: ", Genesys and TalkDesk" and "All support inbound and outbound as a blended service."

There are no required upfront payments, long-term commitments or minimum monthly fees. While our rates are given on a per minute basis, you pay by the second (minimum 10s) for Amazon Connect voice usage plus any associated telephony charges." Added: "Aspen-IVR is a pay-as-you-go service. There are no required up-front payments, long-term commitments, or minimum monthly fees.
- Page 37, Item 2, Updated Bidder's Product Description, Restrictions, and Limitations. Deleted: "Amazon Connect service usage fee is fixed. Amazon Lex is a service for building conversational interfaces into any application using voice and text. Amazon Lex provides the advanced deep learning functionalities of automatic speech recognition (ASR) for converting speech to text, and natural language understanding (NLU) to recognize the intent of the highly engaging user experiences and lifelike conversational interactions." Added: "Aspen-ASR is a per min IVR with Speech Recognition service.
