Career Opportunities in

Information Technology and Data Center Services

Looking for more than just a job?

Then you may be interested in becoming part of a department that provides many critical services that California citizens rely on every day.

Our Data Center Services Division is one of the largest suppliers of information technology to state, county, federal, and local government entities throughout California. DCS delivers comprehensive computing, networking, and electronic messaging services and supports the operations of some of the largest and most sophisticated computer systems in California.

We are one of the few state entities with a state of the art Tier 3 Data Center. We employ over 800 staff who provide support to mainframe systems, maintain updated web sites and services, oversee major IT projects and procurements, and manage the statewide CalNet and CGEN network infrastructures.

Why join the Dept. of Technology?

We value the importance of your work/life balance and know you appreciate challenging and meaningful work. We foster a supportive and diverse work environment that is collaborative and team-oriented. We offer excellent health benefits, generous vacation and sick leave accrual, exceptional retirement benefits, 11 paid state holidays, and two paid professional development days per year. Our work locations are mainly in park-like settings in Rancho Cordova with free parking.

Who we're looking for..

We're seeking motivated professionals who possess the following talents:

- A focus on customer service
- Strong analytical skills
- Excellent interpersonal skills
- Aptitude for leadership
- Collaborative attitude
- Team player
- Able to think creatively to find solutions
- Self motivated and directed
- Excellent communications skills in both verbal and written formats

We are seeking talented individuals who can excel in the fields of project management, data center services, and administration.
