Information Security Best Practices

- **Must follow California Information Security SAM Chapter 5300**
  http://sam.dgs.ca.gov/TOC/5300.aspx

- **Information Security Integration 5315**

  - **Clear communications of risks and consequences in project charter**
    http://www.documents.dgs.ca.gov/sam/SamPrint/new/m426june14/chap_5300_sam/5315.pdf

- **System Development Lifecycle 5315.2**

  - **Communicate every detail and step of planned conversion/migration process**
    http://www.documents.dgs.ca.gov/sam/SamPrint/new/m426june14/chap_5300_sam/5315.2.pdf

Information Security Best Practices

- **Information System Backups 5325.6**
  - System backups frequently to allow project team to revert back at any point in SDLC
  http://www.documents.dgs.ca.gov/sam/SamPrint/new/m426june14/chap_5300_sam/5325.6.pdf

- **Media Protection 5365**
  - Do not extract data to unsecure media to transport during conversion/migration

Information Security Best Practices

- **Privacy 5310**
  - **De-identify personally identifiable or confidential data to create a test sampling**
    http://www.documents.dgs.ca.gov/sam/SamPrint/new/m426june14/chap_5300_sam/5310.pdf

- **System developer security testing 5315.4**
  - **Perform conversion/migrations with a test sampling of data before applying to the entire system**
    http://www.documents.dgs.ca.gov/sam/SamPrint/new/m426june14/chap_5300_sam/5315.4.pdf

Information Security Best Practices

- **Configuration Management 5315.5**
  - **Documented end-to-end test of entire conversion/migration process**
    http://www.documents.dgs.ca.gov/sam/SamPrint/new/m426june14/chap_5300_sam/5315.5.pdf

- **Information Security Compliance 5330**
  - **Validate and reconcile that data is accurate and complete prior to production** (parallel testing)
