

Welcome to *California*[Class Project](#)[Class Governance](#)[Participants](#)

My CA

Class Governance

Introduction

This page includes documentation regarding how we, the class members, will govern ourselves during the year. We began by developing ground rules and have displayed them using the Mind Map method learned during our VanWrite class. By using the links below, you will find the mind maps and other information regarding the Team's governance activities.

Governance Documents

[Ground Rules](#) - Provides the starting point for class governance.

[Conflict Resolution](#) - A process to help resolve conflict between individual class members. (Nice to have, don't expect to use.)

[Issue Management](#) - A process to manage the issues that arise during class.

Fine System - A process to manage class participants. \$1.00 fine for arriving late, returning from lunch or breaks late, cell phone and pager rings, and drive bys. No excuses!
