TA 14-09: Highway 50 Corridor Construction Impact

ATTENTION: All OTech Customers

ACTION REQUESTED: None – Information Only

DATES: April 22 through June 25, 2014

Overview:

The California Department of Transportation (CalTrans) is scheduled to renovate a section of Highway 50 near downtown, from April 22 through June 25, 2014. This effort is known as the [Fix 50 Project](#) and will result in significant traffic delays on the W/X Viaduct, and on other freeways and roadways serving the Sacramento area. As a result, commute times will be impacted when traveling to/from most downtown businesses and surrounding areas.

CalTrans is suggesting that commuters help to reduce traffic congestion by temporarily changing work schedules to avoid rush hour, carpooling, reducing unnecessary trips, and/or using other forms of transportation.

Business Impact:

OTech is committed to providing the same level of support and customer service throughout the term of the [Fix 50 Project](#). Therefore, in an effort to minimize the impact on the transportation infrastructure, some customers may experience slight modifications in how we conduct business. Specifically, due to unforeseen delays in commute times, we ask that all meetings have a conference line to avoid unnecessary travel when possible. Additionally, some staff may alter their work schedules during this time to avoid heavy commute periods, which may impact their availability to attend meetings. For this reason, we ask that whenever possible, meetings be scheduled mid-day to accommodate staff with altered work schedules.

If you or your staff plan to visit one of the OTech offices in Ranch Cordova, we encourage you to consider the traffic implications and plan accordingly.

These small changes will allow us to maintain service levels while also accommodating those impacted by the highway construction.

When:

The [Fix 50 Project](#) will take place from April 22 through June 25, 2014.

Contact:

If you have questions or need further clarification, please contact your OTech Account Lead. If you are unsure who your Account Lead is, please use the [Account Lead Lookup](#), or call the Customer Delivery Division at (916) 431-5477.
