TA 23-01: On-Premises Storage as a Service (STaaS) Updates

ISSUE DATE:	**January 30, 2023**
ATTENTION:	**All CDT Customers**
ACTION REQUESTED:	**None – Information Only**
EFFECTIVE DATE:	**April 1, 2024**

Overview:
CDT will continue to offer On-Premises Storage as a Service (STaaS) when its on-premises Vendor Hosted Subscription Services (VHSS) contract expires on March 31, 2024.

What's Next:
The contract expiration and transition to CDT will not impact customers or their subscribed services. Starting April 1, 2024, STaaS On-Premises will be hosted and managed by CDT at its Data Centers, offering a direct customer experience with the following features:

- Cost remains unchanged at the existing published rates
- Pay per use subscription
- Data encrypted at rest, within CDT Data Centers
- Multiple storage tiers
- Built in High Availability (HA) at CDT Data Centers

Please refer to the On-Premises Storage as a Service (STaaS) page on the CDT Service Catalog (including the FAQs and Rates tabs) for additional information.

Action Requested:
No action is required for existing customers at this time.

Contact:
If you have questions, need further clarification, or would like to discuss your department's specific requirements, please contact your CDT Account Lead by

using the [Account Lead Directory](#) or by calling Customer Engagement Services at (916) 431-5390.
